

ENSURING EVERYONE'S SAFETY

To ensure that both our guests and our team have a safe and enjoyable experience, we have put these processes in place:

No person with a fever or symptoms of COVID-19 is permitted to enter the facility.

Between seatings, we will clean and sanitize table condiments, digital ordering devices, self-service areas, tabletops, and commonly touched areas.

All employees have been trained on the importance of frequent hand washing, the use of hand sanitizers with at least 60% alcohol content.

Per existing FDA Food Code requirements, employees who are ill are not permitted to work.

We have placed markers showing social distancing spacing while in line or dining in.

When possible, call ahead for curbside pickup or order online to minimize contact.
